President Pfannenstiehl Hosts Open Forum

On Wednesday November 2nd President Craig Pfannenstiehl hosted an open forum in 31 St. James. President Pfannenstiehl opened up the session by talking about Bay State College's future plans and the outcomes we have in place for 2015. With about 15 students in attendance from different departments and student organizations, they were able to discuss the future of their particular program or their student organization. President Pfannenstiehl

talked about the strategies and goals Bay State College has for the 2015 academic year. The two main strategies that he focused on were to enhance our reputation as an institution with an uncommon focus in service excellence. To accomplish this strategy we need to do things such as provide a supportive environment for students and develop a reputation as a leader in service to the community.

A second strategy he touched strongly upon was strengthening the student experience, increasing the student engagement through enriching educational experiences. The students were satisfied with the forum and the answers President Pfannenstiehl.
