

Bay State College

Addendum to the Application

For students enrolling in the Medical Assisting, Physical Therapy Assistant, Criminal Justice, Nursing and Early Childhood Education programs.

Many internship and career opportunities within these fields may require a Publicly Accessible CORI (criminal offender record information) check prior to internship or employment. Applicants with a prior criminal record and/or personal bankruptcy may be denied opportunities in some positions. Decisions are made at the discretion of the internship site or employer. Bay State College has no control or influence over these decisions.

For an adult record to be “publicly accessible” the person whose record is requested must have been convicted of a crime punishable by a sentence of five years or more, or have been convicted of any crime and sentenced to any term of imprisonment, and at the time of request:

- is serving a sentence of probation or incarceration, or is under the custody of the Parole Board; or
- having been convicted of a misdemeanor, has been released from all custody or supervision not more than one year; or
- having been convicted of a felony, has been released from all custody or supervision for not more than two years; or
- having been sentenced to the custody of the department of correction, has finally been discharged there from, either having been denied release on parole or having been returned to penal custody for violating parole for not more than three years.

I have read the above information and acknowledge its addition to the Application:
